New in the fleet!

MRT2660E

Electric rotating telehandler

The 100% electric telehandler MRT 2660e is a versatile machine that can be used for various jobs without emissions and with a low noise level.

This electric telehandler has a maximum load capacity of 6,000 kg, lifting height of up to almost 26 meters and a reach of almost 22 meters. With its durable and silent power, this telehandler can be deployed in urban areas and in many previously excluded environments: closed places, environments with high population, train stations and airport areas, historical centers and in greenhouses.

Technical specs

MRT 2660e

Rental number	453826
Lifting capacity (kg)	6,000
Lifting height (m)	25,90
Range (m)	21,70
Weight (kg)	18.000
Turning radius (m)	4,46

Dimensions

Length (m)	9,28
Width (m)	2,50
Height (m)	3,10

Engine/battery

Drive	Elektrisch
Battery*	Lithium-ion 65 kWh (onboard)
Voltage	624 V nominal 680 V maximal
Charger	22KW AC - 400V/230V (onboard) - fastcharge plug 60KW DC

*Optional: second onboard battery pack for a total of 130 kWh power, available at an additional cost

- 100% electric
- Preparation for Platform and Winch
- Radio controlled
- Air conditioning
