The design for champions

The compact excavator EZ26 guarantees modern design, flexibility and ease of use. Transportation by car trailer to the next construction site? No problem - the low weight allows transport including attachment tool by means of 3.5t trailer. An innovative windshield mechanism for easy ventilation provides working comfort and facilitates communication between driver and colleagues. Control lever carrier, the wide cabin entry and the arrangement of control and display elements of the EZ26 are ergonomically perfectly adapted to the needs of your workplace.

- The re-designed cabin of the EZ26 is ergonomical and spacious.
- Large, double-sided sliding windscreen.
- Magnetic rotating light (LED) which can be quickly attached and released at any time. The LED light is characterized by high luminosity and low power consumption.
- Zero tail swing for working in tight and confined spaces.
- Optional Vertical Digging System (VDS) and EASY LOCK.
