## S-80J TRAX

### Telescopic boom lift tracks

The S-80J TraX telescopic boom lift is the ideal solution for safe and efficient working at height. With a platform capacity of 300 kg, it offers space for two people plus tools.

Unique in its class is the tracked chassis, ideal for use in difficult terrain. With a working height of 26.56 meters, a large horizontal reach of 16.69 meters, and high ground clearance, this boom lift is perfect for construction, maintenance, and inspection, among other applications. Manoeuvrable, powerful, and reliable under all conditions.
